imaged at ≤ 40 m/pixel
imaged at 40–150 m/pixel
northern smooth plains
hollow field
b
outside plains
outside, 60–75° incidence only
outside, 90–150°E province removed
inside plains
hollow fields per 10^6 km^2 imaged
latitude (°N)
c
isolated
inside Caloris
excavation reaches base of plains
fraction of craters hosting ≥ 3 hollows
crater diameter (km)
